Gin of the Month

Brockmans Premium Gin

Brockmans is like no other gin. For gin enthusiasts it is a revelation, for gin novices it is about discovering an unexpected individual taste. It stands proudly alone from the many other types of gin due to the unique recipe of exquisite botanicals and the patient steeping distillation process. Where the more traditional notes of gin are combined with a refreshing influence of citrus and aromatic wild blackberries and blueberries. This creates an intensely smooth gin taste that is sensual and daringly different.

Fine Wine

Château Laubès 2010 Bordeaux

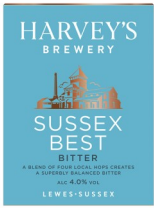

This is a wine that is almost mature. With generous black fruits and tannins that are integrated into the texture, the wine is ripe and fruity. The acidity is still there, giving a crisp aftertaste.

Chateau Laubes is on the Right Bank of the Garonne River. Like most of its neighbours, its wines are Merlot-based, with additions of Cabernet Sauvignon and Cabernet Franc.
